

# Cruise with Tivoli in Belize!

World-class diving, miles of beaches, fascinating Maya ruins, and pure relaxation

## LET TIVOLI TAKE YOU TO

the "other Caribbean": one that's unspoiled, uncrowded, and unbelievably beautiful.

Located at the southern tip of the Yucatan Peninsula, Belize is a true paradise. Come now, before everyone else discovers it!

We'll anchor off white-sand beaches, stop at quaint fishing villages, and explore tropical atolls and islands where we're the only visitors. You'll see Belize's famous barrier reef, the longest in the Western Hemisphere and home to a stunning array of sea life. The diving and snorkeling are incredible!

We'll be happy to arrange private excursions for you, too, so you can experience Belize's fascinating Maya ruins, rain-forest adventures, flats fishing or deep-sea fishing, and wildlife preserves.

There's no need to compromise on luxury when you cruise Belize in the private, first-class comfort of this 90-foot expedition motor yacht. You'll be pampered with every amenity, including excellent cuisine prepared according to your wishes. Tivoli's welcoming, professional crew are waiting to show you this very special part of the world.

Belize is just two hours from Florida or four hours from New York, and several international carriers offer daily flights. We will meet you at the airport and whisk you away to Tivoli and an unforgettable time.

- Discover Belize's spectacular diving and snorkeling
- Explore Belize's famous barrier reef, the second largest living reef in the world
- Visit wonderful anchorages at some of Belize's more than 200 uninhabited islands in sheltered waters within the reef
- Picnic or beachcomb ashore on long, gorgeous beaches
- Go bonefishing on the flats or deep-sea fishing for the big ones!
- Leave your phrasebook at home: Belize is Central America's only English-speaking country

## M O T O R   Y A C H T   T I V O L I

# The best of Belize awaits

## Belize's Amazing Diving

Belize offers SCUBA divers the experience of a lifetime. It also offers beginning snorkelers calm, shallow waters in which to learn. Either way, you'll be treated to a technicolor array of marine life. Belize's living coral reef is a true underwater garden teeming with such creatures as spotted eagle rays, snapper, grouper, angelfish, nurse sharks, reef sharks, and more. The ultimate destination for the experienced diver is the Great Blue Hole, a 984-foot wide underwater sinkhole made famous by Jacques Cousteau. Belize's crystal-clear waters are also the habitat of wild dolphins, turtles, and manatees.

## Belize's Intriguing Maya History

The Maya civilization flourished in Belize for more than seven centuries, leaving behind fascinating ancient temples and tombs that bear witness to their excellence in writing, mathematics, and astrology. They tell the story of a culture that revered nature, knew how to build structures that remain Belize's tallest manmade edifices, and practiced a mystical religion that included human sacrifice. We will be happy to arrange a private land-based daytrip to Maya sites for you, or help you plan an excursion inland before or after your cruise.

## Belize's Eco Wonderland

Nearly half of all the land in Belize has been set aside as national parks and marine reserves. Here you can witness the riches of this rare tropical paradise. We can take you to see red-footed booby birds and laughing gulls, as well as the world's largest population of whale sharks (February to May). We can also organize a private exploration of Belize's rainforests where you will see rare parrots and macaws, howler monkeys, and hundreds of other species of exotic wildlife. Belize boasts the world's only jaguar preserve, colorful butterfly farms, and an acclaimed zoo. There are also rainforest tours and jungle zip-line adventures.

Enjoy it in style on Tivoli!
